## TESTIMONIALS

*"Jordan is extremely knowledgeable about tennis. Through the junior program, competing in college at Dayton and in ITF tour events, Jordan understands what it takes to be at a top level. A group of us A-type personalities, a little past our prime, but not willing to admit it, asked Jordan to come be our cardio/workout pro. We wanted to drill like we were in college or still trying to make the tour and Jordan obliges us! He is very perceptive and can feed each one of us according to how much he needs to push us and how we are doing that day. He comes up with fresh game plans so we don't get stale and brings energy every time we are on that court with him. He helps us technically, tactically and strategically. Not only can Jordan coach old, wannabe pro level tennis players, but he also coaches my 4-year old daughter. I have watched the energy, love of the game and patience he brings to our mighty mite program. My daughter came out of her very first group tennis lesson all bright eyed and energetic and couldn't wait to tell me all about it. No matter the skill or age level, Jordan can impart his knowledge and love of the game to keep people learning and loving the sport of tennis!"*

*"I first met Jordan a few years ago. From the day one, he has been polite, patient, focused, encouraging, and over all an incredible tennis teacher. Depending on how I feel, mentally or physically, he adjusts my lesson each time, and I always end up having a great experience, often to my surprise. I also enjoy him doling out, ever so inconspicuously, technical elements, at the level I can digest. It feels as if he has a written lesson plan for the year. Finally, while I enjoy Jordan's approach to improve my tennis, I feel fortunate that he's also a very nice person. This, to me, weights a lot."*

## AREAS OF EXPERTISE

I am comfortable with all ages and skill levels. I am patient, descriptive, energetic, and encouraging while also challenging my students. My style varies from live ball to a mixture of hand feeding and racket feeding drills, & most importantly, constant feedback—that way my students can think for themselves when playing on their own time. I am very informative and offer multiple examples and metaphors when demonstrating technique. My goal is to give back by sharing my experiences and knowledge with each of my students.
