## TESTIMONIAL

*"Jason has been my coach for several years. He is very committed to tennis and his students on and off the court. For me, he always texts me before and after matches giving me advice and asking for my thoughts on how I played. After practice, he sends me some videos and pictures with a detailed description of how he thought I played and what my weaknesses/strengths were from that practice. During practices, he always pushes his players to do better- a lot of drills, agility, and point play (a lot of variety). I think he's a great coach that cares a lot for his players!"*
